What does A.B.A.T.E. do?

- Protects the rights and freedoms of motorcyclist and off-road riders in Illinois, ensuring they are not restricted by unnecessary legislation.
- Advocates for freedom of choice, especially regarding motorcycle related regulations such as gear requirements and riding practices.
- Actively works with state and local legislators to ensure motorcyclists' voices are included in transportation planning and policymaking.
- Serves as a legislation watchdog, monitoring and influencing legislative actions that affect motorcycle rights on the state, national, and even global levels.
- Helps draft motorcycle-related legislation that improves rider safety and protects motorcyclist rights throughout Illinois.
- Conducts extensive safety and education programs for drivers, seniors, legislators, and motorcyclists to increase awareness and reduce accidents.
- Promotes motorcycle safety, acceptance, and enjoyment through statewide educational and community outreach programs.
- Provides discounted legal services to members, offering support for injury cases, wills, and other legal needs through experienced motorcycle rights attorneys.
- Maintains a strong statewide network of more than 60 chapters and over 120,000 members, allowing broad grassroots action and community involvement.
- Organizes advocacy events and rallies, such as Freedom Rallies and Legislative Days, giving riders direct access to lawmakers.
- Publishes newsletters and informational materials to keep riders informed about rights issues, laws, events, and safety education.
- Employs a professional lobbyist to represent motorcycle rights in Springfield, ensuring continuous advocacy in government.

DAVE SALTER

Hello everyone. There are a lot of events this year for motorcycles and with that comes a lot of dangers. We all have seen strange things happen on the road but we all find a way to ride on. With all the new laws trying to be passed and new laws being made everyday it's more important now than ever to join ABATE and help us fight the laws that will effect every rider in Illinois. If we ban together and keep these bills being presented out then we still have choices. If we do nothing then we lose our rights as motorcycle riders and will have to abide by any laws the government pushes through into effect. That's why it's important to check out ABATE and see what's happening and find out what we can do as ABATE members to stop the bills being put forth. If you have any questions feel free to contact me anytime and I will be glad to go over everything with you. Everyone be safe and keep the rubber side down.

- Dave Salter, Peo-Taz President

DID YOU KNOW? STAY INFORMED FROM THE MOTORCYCLE RIDERS FOUNDATION (MRF)!

“NHTSA Amplifies Investigation Of Tesla Full Self Driving System

The National Highway Traffic Safety Administration (NHTSA) has been investigating Tesla's “Full Self-Driving” (FSD) systems for several months now. This is one of the systems that a California court recently called "misleading", prompting a name change. Now, according to information posted Thursday on the NHTSA website, the investigation is being amplified.

The Motorcycle Riders Foundation (MRF) has expressed concerns regarding the “Full Self-Driving” system and its testing, following several incidents in which Teslas struck motorcycles, particularly in low-light conditions. Similarly, the NHTSA probe into Tesla’s FSD is testing possible safety defects that make it risky for use in fog, glaring sun or other “reduced roadway visibility conditions.”

NHTSA wrote that Tesla FSD may fail “to detect and/or warn the driver appropriately under degraded visibility conditions such as glare and airborne obscurants.” These statements appear to echo the MRF's concerns regarding a system advertised to improve roadway safety.

The MRF continues to encourage all riders to practice safe, aware riding and consider taking an Advanced Riders Course to help with crash avoidance. There are over 3 million Teslas on the road utilizing the FSD system, so the MRF will continue to monitor this situation as it develops, to help ensure the safety of all motorcyclists.

DUSTY DIBLER

A'HO! Well, riding season is finally here. Are you planning a long trip this year? Have you thought about the physical and mental aspects of this trip? Long trips are adventurous and invigorating but can be demanding at the same time especially if you are a new rider and not use to riding 300+ miles. Getting tired during long motorcycle trips can be extremely dangerous, approximately 10% of motorcycle highway accidents that occur are due to rider fatigue. Physical strain, body aches and pain are some of the reasons for motorcycle rider fatigue. Almost all these factors can be avoided by being proactive and investing in high-quality motorcycle parts and clothing. Motorcycle riding requires undivided focus.

Fatigue lowers mental alertness and response time which can lead to mistakes, collisions and fatal accidents. Here are some of the effects that fatigue has on your physical and mental state: Feeling Bored, Loss of Peripheral Vision, Irritability, Yawning Frequently, Inability to Focus on the Road, Tense and Achy Muscles, Forgetting Route, Missing Road Signs, Navigating Traffic, and Reduced Motor Skills.

All these signs can make a trip unenjoyable. To help prevent rider fatigue, plan your route and places to stop and rejuvenate yourself.

Make sure your seat is comfortable, gel seats or pads are a great option. Have proper clothing for the weather conditions, even on nice days you need something to break the road wind. Wind is the number one cause of rider fatigue, from dehydration or hypothermia. Eat and drink healthy, drink lots of water and get adequate sleep.

So, Saddle up and ride safe!

DID YOU KNOW? STAY INFORMED FROM THE MOTORCYCLE RIDERS FOUNDATION (MRF)!

2024 Traffic Fatality Data: Motorcycle Riders Foundation Response””

According to NHTSA, 6,228 motorcyclists were killed in 2024, a decrease of 138 lives or 2.2% from 2023 levels. While any reduction is a step in the right direction, the number remains historically high, underscoring the ongoing risks faced by riders on America’s roads. Motorcyclists continue to represent a significant portion of roadway fatalities, even as overall traffic deaths declined nationwide by 4.3% in 2024. At the same time, the data shows a concerning trend in injuries, with motorcyclist injuries increasing by more than 5% year-over-year.

For the MRF, these numbers tell a nuanced story: progress is being made, but serious challenges remain. “Seeing fatalities decline is encouraging, but no one in our community is celebrating,” said MRF President Kirk “Hardtail” Willard. “This should be a wake-up call to double down on what works, strong rider training programs and effective licensing systems. If we want to continue reducing deaths, states and the federal government must invest in preparing riders before they ever hit the road.””

The MRF also noted that behavioral factors such as alcohol impairment and lack of proper training continue to play a role in crashes involving motorcycles. Rather than pursuing broad federal mandates that could restrict the motorcycling lifestyle, the organization is urging policymakers to focus on targeted, proven solutions.

As federal regulators examine these trends, the MRF cautions against policy approaches that may not reflect the realities of motorcycling. While improving safety outcomes is a shared goal, overly broad regulations risk undermining the independence and personal responsibility that define riding in America.

The MRF continues to advocate for a balanced path forward, one that prioritizes education, training, and licensing compliance while preserving the freedoms that riders value. As is often the case, MRF Vice President Jay Jackson noted, “A crash that never happens is better than a safer crash.” To achieve this goal, the MRF is committed to reducing crashes and protecting our friends and family members, who make up our community.

At the State seminar this year the one big take away was from our State Coordinator Chris Hansen..." Every member in our chapter should be considered public relations!" We have goals of growing our chapters as well as keeping our organization alive! I gladly wear many hats in this chapter as your product director as well as your social media content provider by posting all related information...I also work closely with Woody in his legislative rep. role as we try to stay in the know for all things ABATE!

Let's have those conversations with everyone to help educate all people we encounter about what we do & what we stand for! Thank you to all our members for your continued support as we protect our rights to decide how we ride! Thank you!

DID YOU KNOW? STAY INFORMED FROM THE MOTORCYCLE RIDERS FOUNDATION (MRF)!

"MRF Leadership Engages With National Council Of Clubs"

The Motorcycle Riders Foundation (MRF) was proud to participate in a gathering hosted by the National Council of Clubs (NCO) in Gulfport, Mississippi last month. The event provided an important opportunity for MRF leadership to present the organization's federal legislative agenda and engage with motorcycle club leaders from across the nation.

Opportunities like this allow the MRF to share the work being done on behalf of motorcyclists in Washington, D.C., while also expanding the network of advocates who help ensure that the voice of bikers is heard on Capitol Hill. By communicating directly with leaders from the club community, the MRF can help translate federal policy issues into grassroots action that reaches key lawmakers.

The partnership between the MRF and the NCO has been built over many years through a shared commitment to protecting the rights and lifestyle of motorcyclists. That relationship is rooted in trust and a mutual understanding that collaboration strengthens the entire motorcycle community.

Presenting the MRF's legislative priorities to a wider audience helps ensure riders across the country understand the issues being debated in Washington and how those decisions can impact motorcyclists nationwide. It also empowers club members and independent riders alike to amplify the message with their elected officials.

The MRF values its ongoing partnership with the NCO and remains committed to working together for the greater good of all motorcyclists. By combining the grassroots strength of the club community with the MRF's advocacy efforts in Washington, the motorcycle community continues to build a stronger, more unified voice for riders everywhere.

Ride with the Leaders!

Thousands of motorcyclist rights activists have attended MRF sponsored annual regional and national workshops since 1985. These workshops provide the nuts and bolts, "user friendly" subjects and training to assist motorcyclists in defending, building, and strengthening their grass roots organizations.

Motorcycle Riders Foundation is proud to present their annual conference for politically motivated motorcyclists! Spend the weekend with some of motorcycling's most educated and dedicated activists. Learn what issues will impact bikers today and in the future!

Use the applications below to join and support the Motorcycle Riders Foundation and to pre-register for the 26th annual Meeting of the Minds, September 23-26 at the Holiday Inn City Centre, Peoria, Illinois.

A.B.A.T.E. needs YOU! Call to Action

There are more owners of motorcycles, atv's and dirt bikes than ever before. However, our membership state wide is lower than it has been in a decade.

WHO WILL FIGHT FOR YOUR RIGHTS?

When Trailer plate prices were raised by 555% A.B.A.T.E. was the only organization that addressed it. A.B.A.T.E. is ever vigilant on keeping Illinois a helmet by choice state. (Illinois vs Freis)
