

Peo-Taz News

November , 2022

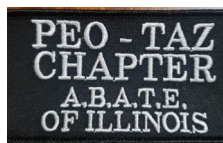

Your Roving Reporter

It is election time folks, don't forget to vote for the candidate of your choice!!!! As far as the Chapter election goes, we have letters of intent from (4) four members willing to step forward: Dave Salter for President, Susan Salter as Treasurer, Dusty Dabler as Security and Matt Bernstein for Newsletter. The following positions need to be attended to, Activities, Public Relations, and Safety & Education. If you feel as if you can spare some time, why not step up to the plate. Remember last month when it was announced the Larry Howell missed out on a cool \$120.00, not his name wasn't drawn again but Madden Stephen's name was, and they missed out on \$130.00. Sure, do wish my name was drawn. When we had the Fed Pac Incentive drawing our very own Lesa Culver shared in the prize. For those of you who attended BASH this year we Thank You \$15,000.00 was raised to help feed those in need. Don't forget on October 22nd we are celebrating the Chapters Birthday. It will be held at 1406 N. Boyd Ave. in Norwood Park starting at 3:00 P.M. Bring a side dish or desert the drink of your choice and a chair to sit on. Like I said last month the Chapter will furnish the hot dogs and condiments. If you want to cook something else bring it along. Also, a reminder that the quarter auction which is our biggest fund raiser will be held after our November meeting at 3:30. This will be at the VFW in Bartonville on Lafayette. Come one come all!!!!!!

Chaplain.....

Get those leathers out folks! Chilly out there. We are thankful we had a good summer! Answers to prayer; from our prayer needs at last meeting; Our neighbor Christine had her surgery, they got all the cancer and didn't have to remove her bladder. PTL, Caveman's benefit was very successful, thanks for all who stopped by and supported it. Bash was a huge success again. More money to help homeless and needy! Hallelujah, Pray for our Chapter elections: outgoing and incoming officers. We have so much to be thankful for everyday! Be safe all, love you all, see you soon! love Ben and Pam

Membership.....

Howdy all! There is some cooler weather coming our way. Make sure to check your tire pressure. Do you have a Peo-Taz hoodie in your saddle bags? How about a beanie? Check out our awesome products Lady T, she will hook you up There are only a few months left to receive a free membership from the state. If you sign up 10 new members you receive a free single one-year membership. We have gift certificates available as well. Speaking of gifts, our 5th annual quarter auction will be November 6th. Doors open to the public at 3pm and the auction will begin at 3:30pm. This is a great time to pick up Christmas gifts for others as well as yourself. Check out our Facebook page to see just a few of the donated items. There is still time to donate as well. You can bring donated items the day of. The food again this year will benefit St Jude rides. Steve and Tobi Mullen and their crew always do a wonderful job for this event and the food is always tasty. This is one of our biggest fundraisers of the year. We hope to see you all there As of October 1st 2022 we have 161 active members with 6 new members signing up in September they are :

Brad Gill Robert Weyrick Stephanie Weyrick Steven Chitwood Ashtin Holler
Dan Steinbach

Welcome to A.B.A.T.E. and your Peo-Taz Chapter! **Members due in October.**

Mike Branchfield Jackie Cooper Thank you Have a groovy day!

We Told You So

At last year's MRF Meeting of the Minds in Atlanta, Georgia the fate of the internal combustion engine was discussed. In fact, at the urging of ABATE of Illinois, the following language was added to the MRF's 2022 Legislative Priorities: "Work to ensure the survival of combustion engines. Including elimination of the California air quality waivers which threaten combustion engine production." In October of 2021 California Governor Gavin Newsom signed a bill into law banning the sale of all off-road, gas-powered engines, including generators, lawn equipment, pressure washers, chainsaws, weed trimmers, and even golf carts. And less than one year later we learn this, the California Air Resources Board (CARB) that governs motor vehicle emissions for the state adopted new rules that will require 35% of the new cars sold in the state are electric or plug-in hybrids by 2026, with that percentage rising to 68% by 2030 and 100% by 2035. That's right gas burning cars will no longer be for sale in the country's largest state in less than 15 years. Other states, including Massachusetts and Washington have already signaled that they would follow California's lead.

What does the future of motorcycling look like ?????

Will the Bike you are riding today be legal in a few years ?????

What will your kids or Grandkids be riding or will they even be allowed to own a motorcycle?????? MRF

Are You Afraid of The Dark

With the fatalities increasing by 10.5% from 2020 to 2021, safety advocates are looking for causes. The Insurance Institute for Highway Safety (IIHS) has begun a nighttime test of vehicles that use automatic emergency braking (AEB) systems to address the high percentage of pedestrian's crashes that occur on dark roads. As we expected most of these pedestrian AEB system don't work very well in the dark, "says IIHS Present David Harkey. You heard that right, out of the 23 brands of mid-sized cars and trucks, only 4 scored the highest rating of "superior" by the IIHS. When the same testing was done in Daylight, 19 of the 23 vehicles received the highest score. While pedestrians are the focus of this study, motorcyclist are rightly concerned, all too often, motorists assume the technology in their cars is perfect and rely too heavily on it. The study shows that this new technology is far from flawless! Motorcyclist are operating at higher rates of speed, with different profile, in closer proximity to other vehicles than pedestrians or other roadway users. **If a car, with this new technology, can't see a pedestrian walking across the street at night directly in front of them, can it see a biker in the lane next to them.** MRF

Autonomous Vehicle and Electric Vehicle Tax Credits

August in Washington, D.C. is normally a quiet time of year as lawmakers have left town and will not return until after Labor Day. Despite this, a few issues caught our eye that we wanted to make you aware of. On August 11th Sen. Gary Peters (D-MI) and Rep. Jan Schakowsky (D-IL) sent a joint letter to the National Highway Traffic Safety Administration (NHTSA) on how the agency is working to address its report showing that Tesla vehicles were implicated in numerous crashes, including crashes involving serious injuries and five known deaths. As we mentioned last week, two fatal crashes between Tesla vehicles and bikers in California and Utah earlier this year have raised concerns at the MRF. According to the letter, "Federal investigations and recent reporting have uncovered troubling safety issues associated with these systems, including but not limited to the following: Driver Engagement* The National Transportation Safety Board (NTSB) found that Tesla's Autopilot system does not effectively monitor driver engagement and respond to driver inattentiveness. Erratic Driving - Reports have found that vehicles in Full Self Driving (FSD) mode have imperiled bicyclists and pedestrians, driven down tram tracks, and crashed into billboards. Rolling Stops-"Last year, Tesla issued a software update enabling FSD to make "rolling stops," in which the vehicle fails to come to a complete stop at all-way stop intersections. Passenger Play - Last year, Tesla introduced a new "Passenger Play" feature enabling occupants to play video games on the center console while the car is in motion, which could be used by the driver when the Autopilot feature is engaged. Phantom Braking - In October 2021, Tesla recalled certain vehicles equipped with FSD software over issues with vehicle braking. 11 Vehicles equipped with this software were reportedly braking sharply in response to falsely detected road hazards." The other major news this month was the passage of the Inflation Reduction Act of 2022. included in the legislation was a 10-year tax credit worth up to \$7,500 for the purchase of a new electric vehicle and a \$4,000 tax credit for a used vehicle" The Department of Energy has released a list of nearly 30 vehicles that meet the requirements for the tax credit, however, clearly missing from the list are electric motorcycles. The tax credit only applies to four wheeled vehicles assembled in the United States. Now there is no doubt that many of the 10 million bikers in this country have no interest in purchasing an electric motorcycle If it doesn't run on an internal combustion engine, they have no interest in riding it. Nevertheless, its concerning when the federal government crafts policy regarding our transportation system and omits motorcycles from that policy. While D.C. has ignored bikers, a handful of state governments have rightly included motorcycles in their state-run tax credit programs for electric vehicles" Even with Congress on vacation until September, the MRF remains committed and vigilant in defending the rights and safety of all bikers. **Ride Safe and Ride Free.** MRF

Products.....

Happy Fall!

As the cooler temperatures arrive so does the planning of taking care of your motorcycle, whether it be a tune-up, modifications, and even storage plans!!! Now is the time to start planning! Better to be safe than to be caught late in the game!

Fun Fact!!! The jacket seems to have originated during the Middle Ages or early Renaissance as the jerkin, which is a more fitted version of the short tunic worn by working class men. The history of the coat is deeply rooted in military and naval backgrounds.

Remember we have hoodies and jackets along with lots of diverse products to cover all your Abate supporting wearables!

As always... please support your local ABATE chapters when they have products that are available to you. We appreciate you and your support!

Thank you!

Ride Safe and Make Everyday Amazing!

**A.B.A.T.E. needs YOU!
Call to Action**

There are more owners of Motorcycles, ATV's and Dirt Bikes than ever before. However, our membership state wide is lower than it has been in a decade.

WHO WILL FIGHT FOR YOUR RIGHTS?

Did you know in 2018 they tried to make protective gear, jackets and pants, illegal, calling them BODY ARMOR? You probably have a leather jacket hanging in your closet.

Yes A.B.A.T.E. helped stop that.
