President

DAVE SALTER

Hello everyone again. First off I want to thank everyone for coming out to the first annual Peo-Taz ABATE “Rock for your Rights” party, it was a success. We all need to come together to fight to keep our rights as motorcycle riders. These events are put on for the Bikers and their families so they can get the information needed to understand what ABATE of Illinois does and stands for, also gives a fun atmosphere for good music, raffles, drinks and good food. It also gives people the opportunity to meet each other and make new friendships. We hope to see everyone out and about at local bike nights. Hope everyone has a safe riding season. Til next time keep the rubber side down.

Dave Salter, Peo-Taz President

DID YOU KNOW? STAY INFORMED FROM THE MOTORCYCLE RIDERS FOUNDATION(MRF)

"IHS Releases Statement On Waymo Safety Record"

A new study from the Insurance Institute for Highway Safety (IIHS) is likely to become a major talking point on the issue of autonomous vehicles. According to the report, Waymo's driverless vehicles operating in Phoenix, San Francisco, Los Angeles and Austin were involved in 68% fewer police-reportable crashes per mile traveled than human drivers. The Motorcycle Riders Foundation (MRF) is aware of the study. It expects it to receive significant attention from the media, policymakers and advocates seeking to expand the deployment of autonomous vehicles on America's roads. The findings will undoubtedly add momentum to the national conversation surrounding automated driving systems. As more studies like this emerge, pressure will increase on lawmakers and regulators to accelerate the adoption of driverless technology.

However, one critical question remains for motorcyclists: Can these vehicles consistently detect, recognize and safely respond to motorcycles in every driving situation? While the IIHS report presents encouraging results for Waymo's operations, it also acknowledges shortcomings in the federal data collection system used to monitor crashes involving automated vehicles. Researchers noted that current reporting requirements make it difficult to compare autonomous vehicle performance across companies and emphasized the need for better data as these vehicles become more common.

For the MRF, that need for better data extends beyond overall crash numbers. Motorcycle riders represent a unique challenge for automated driving systems due to our smaller profile and different operating characteristics. Before autonomous vehicles become commonplace, riders deserve confidence that these systems can reliably identify motorcycles and react appropriately. The MRF has consistently advocated that federal regulators, manufacturers and developers ensure motorcycles are fully considered during the design, testing and deployment of automated driving technologies. As these vehicles expand into more communities, interactions between automated vehicles and motorcycles will become increasingly common.

The MRF remains vigilant in monitoring developments involving autonomous vehicles and will continue working with Congress, the U.S. Department of Transportation and the National Highway Traffic Safety Administration to ensure motorcyclists are not overlooked as this technology advances. Studies like this one will continue to shape the public debate. The MRF will continue to advocate for a simple principle, any technology sharing America's roads must be capable of safely recognizing and responding to motorcycles.

DUSTY DIBLER

Bohzo jayek, [hello everyone]

First off if you have family or friends that ride motorcycles, dirt bikes, side-by-sides or snowmobiles and they are not ABATE members, let them know they/us are losing our rights on what you can do to your own vehicles or motorcycles. Did you know our gov't is trying to make it where you can't use after-market parts on anything that you drive or ride and if you take your ride to a dealer and you have any after-market parts on it, the dealer has to take them off and put on emission-controlled parts and they can't give your after-market parts back to you. Did you know the gov't is also trying to go to autonomous vehicles only, look up Road to Zero and you will see that by 2050 the gov't wants this done, I know most of us will be dead by then but what about our kids and grandkids do they not get to enjoy riding motorcycles or driving cross country or being threaten by their parents that dad is going to pull the car over and whoop some ass. did you know that Harley-Davidson is pushing dealers not to work on bikes that are ten years old or older and they aren't making parts for those bikes anymore. I'm not asking them to come to meetings or rides but by them paying for a membership helps fight for our rights.

I would like to think everyone who came out to Oz'z and supported Rock for your Rights, I especially want to think the few of us that was there all day and night to make sure this was a big success.

If you went to Sturgis, I hope you had a great time and a safe trip, but now is the time to go over your bike with a fine-tooth comb and nail. Check all your nuts and bolts, your wheels, your belts and chains and all the fluids.

BASH is September 19th and would love to see PEO-TAZ members' support this event in full force.

Migwetch, [thank you]

Dusty Dibler—Safety and Education

Legislative Representative

PATRICK WOOD

We have to pay attention to what's going on in our state not only as we ride, but as we choose those who are going to protect our rights & fight for those rights to Vote Motorcycles! We need to always show our representatives support as well as they support us. That's always a big reason to get involved! Our freedom isn't free! It has to be worked and tended to like a garden. That being said these last couple of weeks we have had the privilege of invitations to functions for our legislators thanks to our life long member of Peo-Taz & PAC member Hunter John Harris.

Seeing them at the capital in their element for legislative day is one thing. When they come to our area for functions and we get to see them again and talk about issues that affect us locally, they start to recognize our familiar faces! We get to discuss our concerning issues so that they can take them back to the capital. This tends to lend credence to when I explain to you as members... get informed get involved! When we show up in force our real issues are no longer redundant. They have faces. They have names, and they have sources.

On July 29, we had a support function at Pringle stables for State Representative Travis Weaver for the 93rd district. We were able to express some of our concerns about autonomous vehicles and continued safety programs & education under IDOT. Travis Weaver supports ABATE of Illinois with integrity and appreciates our positions.

Then on August 5th, we were able to attend a summer barbecue with Ryan Spain, State Representative of the 73rd District. He's been in our corner for ABATE and we wanted to show our support for him as well. I did announce this date at our monthly meeting on Sunday August 2nd so that we could try to get as many members to show up as we could.

Thank you to all those members that made an appearance! Not only was it our chapter that showed up, there were other surrounding chapters that made an appearance too. What a way to truly show unity!

Both of these fine gentlemen do us justice as they support all things motorcycles! We appreciate their support and loyalty to ABATE. Get Informed Get Involved!

Woody, Peo-Taz Legislative Rep

We cordially invite you to

Roving Reporter

I don't have much for you to read this month. All I can say is that the Rock for your Rights that was held at Oz's Bar was a success and we plan on having it again next year. School will be open here soon and Dusty our Safety and Ed person could possibly use some help in the class rooms. If you have some spare time, give Dusty a shout and see if you can be of assistance once in awhile.

Our meeting dates are out for the next year meaning 2027. Please look at the calendar for the monthly meetings and attend as much as you are able to.

I understand this person Eric Wilke has had his name drawn before for the incentive drawing. If you would have attended you would be \$130.00 richer today.

If you have the chance to attend one of many events held by the many Clubs in the area please do and if possible let the person in charge know that you appreciate the activity and let them know you are from Peo-Taz Chapter.

Sincerely Your, Roving Reporter

I want to thank all the clubs and participants that make “Rock for Your Rights” a success. Well over 200 people attended. We saw generous response to the silent auctions, product sales and donations. ABATE is one of the few organizations that are fighting for our ability to manage our own vehicle without self drive. Planning to organize again next year. Thanks

TERESA WOOD

I want to thank everybody for making our first annual rock for your rights a success!

We had a lot of interactions and for products a good amount of sales. I was able to team up with Woody, and provide buttons with our chapter logos to hand out as a welcome and to spark conversations, if they were not Abate members...this crucial to the success of our chapter, as well as building camaraderie. As I'm sure you're all aware of life's challenges keeping us on our toes that being said I am working on a few projects I'm doing my best to keep costs down. As most of you are well aware all costs have gone up from printing to purchasing.

As always, I thank those of you that continue to purchase and support our chapter. It is much appreciated.

We are looking forward to what the future brings! Stay focused! Stay positive! And Stay Active! Every day counts big so do your best to make it Amazing!!!

Thank you! Ride Safe and Make Everyday Amazing!
